**International Handbook on the Economics of Education** Geraint Johnes, Jill Johnes

This major Handbook comprehensively surveys the rapidly growing field of the economics of education. It is unique in that it comprises original contributions on an exceptional range of topics from a review of human capital, signalling and screening models, to consideration of issues such as educational externalities and economic growth, funding models, determinants of educational success, the educational production function, educational standards and efficiency measurement. Labour market issues such as the market for teachers and the transition of students from school to work are also explored. "The International Handbook on the Economics of Education" will be warmly welcomed by academic economists, educational researchers and practitioners in educational management as well as policymakers. Comprising specially commissioned articles, the Handbook will become indispensable reference for this ever topical field of study.
