Programs and Interventions for Maltreated Children and Families at Risk: Clinician's Guide to Evidence-Based Practice

Programs and Interventions for Maltreated Children and Families at Risk: Clinician's Guide to Evidence-Based Practice

Evidence-based interventions are increasingly being required by third-party payers and an evidence-based orientation has come to define ethical practice. This compendium of short, how-to chapters focuses on the programs and interventions to prevent child maltreatment that have the best scientific evidence supporting their effectiveness. Interventions and programs discussed include Cognitive Behavioral Therapy, EMDR, Multisystemic Therapy, Coping Cat, and many more. Busy practitioners will appreciate this book's implementation of evidence-based practices by providing the practical and "what now" rather than using the typical academic approach.
