In book three of the Katieran Prime Series: Dr. Katrina Morris has fought all her life to be taken seriously. As a child prodigy, she became the youngest to ever attend medical school. Frustrated with her stagnant career, she jumps at the chance to travel to a new and strange world. However, even when she travels thousands of light years away, she still finds herself struggling to be taken seriously on this new world. One man stands in her way professionally, and it's a man she can't help but want on a personal level. To make matters worse, she is torn between her feelings for two men. Will she be able to prove her skills as a doctor and a scientist? Will her romantic feelings get in the way? Will she give herself over to the needs burning within her? Whom will she choose? Prime Medic SydEL has taken over the research on the viral mutation that has prevented the Katieran people from being able to successfully breed with one another. He is distracted by his feelings for the human female who is also a medic. She is continually asking questions, getting in his way, and turning his emotions inside out. Urges arise that he had assumed he was intellectually above. Worse, the female is wanted by another male, which causes his mating urges to increase. Will he keep his mind free to complete his research? Will he give in to the cravings he has for one small female? Will he lose the female to a rival?
