Who Else Wants to Know What She's REALLY Thinking about RIGHT NOW?

Did you know that we say far more with our bodies and faces than we ever do with our words? Body language is a huge part of human interaction - but it's often completely ignored or misunderstood.

If you want to know how to read the signals she's giving you and find out if she's looking at you as more than just a chance meeting, then you've come to the right place.

Hi, I'm Lionel, a body language expert with a career spent researching, examining and analyzing the human behavior and psychology. As you can understand, I've been studying body language for a very long time and I can literally tell at just a single glance exactly what's going on in her mind.

Would you like to be able to do the same?

Just like you, I'm frustrated that all the books, resources and courses out there on body language focus on exactly the wrong thing: what a facial expression or a gesture means in isolation. That's not how it works - our body parts work in harmony to create an overall message.

That's why I've written this book - because I know that the secret of finding out whether she's interested in you lies in more than just one pout or a flick of her hair. I want to show you how to understand her body so that she can finally get that message across to you. That message that she's been sending all along...

Give me ONE day and I'll hand you the keys to her mind

And I'll do it for less than the cost of a cosmopolitan. Even if you've never heard a single fact about body language before, you'll find out in this book what a powerful tool it can be both for you and for her.

Knowing whether she's interested or not in just a few moments IS possible, even if you're a complete beginner

You'll learn how to spot the most important signals and weigh them up in the right context to tell what she's trying to say.

Within this guide, you'll discover:

- Why her eyes really are the windows to her soul
- What she's telling you through her gaze

- The secrets behind her smile
- Is it a good thing or a bad thing that she's touching you
- What it means when her gestures are exactly the same as yours
- How to use her body language to tell if she's interested now
- How to tell if she's still interested in you when you're in a relationship
- And a whole lot more...

This guide will save you over \$500 on a useless course

You'll find plenty of courses out there for people who want to learn body language, but why would you risk wasting at least \$500 and hours upon hours of your time on something that may or may not work? It's a no brainer - This proven guide to understanding female body language has EVERYTHING you need, for a fraction of the cost.

Don't just take my word for it...

I've been sharing my knowledge about body language for years. Here's what just a couple of people who have read this book had to say:

"It is concise, well-structured, and gives valid information that a purchaser of this book would be looking for. There is no wool over the eyes here - my smile says I like it, my lips say it is a must read! A++"
