Arts-Based Research Primer (Peter Lang Primer) Jr. James Haywood Rolling

The *Arts-Based Research Primer* explores the arts-based research paradigm and its potential to intersect with and augment traditional social science and educational research methods. The arts-based research (ABR) paradigm may be broadly understood as a flexible architecture of practice-based theory-building methodologies. This text aims to reveal how arts-based ways of knowing and doing lend themselves to *blended* spaces of naturalistic inquiry, and is intended to aid artists and scientists alike in their research and professional practices.

This text also highlights the utility of arts-based research concepts toward building innovative curriculum-making strategies for educational practice both within and beyond the classroom setting. Accessible examples of analytic, synthetic, critical-activist, and improvisational arts-based research methodologies and their outcomes were solicited from a wide range of researchers in varying disciplines, including senior faculty and emerging graduate level scholars. Chapters include a paradigm analysis of the characteristics of arts-based research; brief historical overviews along with a review of recent ABR literature; charts, diagrams and photographs representing ABR approaches for addressing diverse kinds of questions; suggestions for using an ABR inquiry model when writing a research paper; and detailed glossaries of key concepts and terms.
