Small Animal Surgical Nursing: Skills and Concepts, 1e Sara J. Busch DVM

This unique resource provides detailed coverage of the veterinary technician's role in small animal surgery. Topics include asepsis, operating room protocol, instrumentation, sterile technique, suture materials, suturing techniques, wound management, surgical assistance, and pre and postoperative care of animals. All information reflects the latest developments in drugs, instruments, equipment, and techniques.

- Provides complete coverage of small animal surgical nursing as it relates to the roles and responsibilities of the veterinary technician
- Focuses on key clinical skills, practice tips, patient care, and client education
- Written by veterinary technology educators and authorities on veterinary surgical nursing
- Lavishly illustrated with new color photographs of instruments, equipment, sterile technique, suturing techniques, and wound management
- Addresses the surgical and community service perspectives of feral cat spay/neuter clinics, including the challenges to veterinary technicians because of the high numbers of surgeries performed in a short time period, dealing with feral cats, and the absence of postoperative follow-up care
- Provides performance objectives at the beginning of each chapter, as well as key points and review questions at the end of each chapter to focus and reinforce learning
- Features practical appendices of dosage calculations, how to quickly set IV fluid drip rates, and how to make up various solutions of medications for constant rate infusions

Sheree Gonzalez:

Spent a free a chance to be fun activity to try and do! A lot of people spent their spare time with their family, or all their friends. Usually they performing activity like watching television, gonna beach, or picnic from the park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could be reading a book could be option to fill your totally free time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to try out look for book, may be the reserve untitled Small Animal Surgical Nursing: Skills and Concepts, 1e can be very good book to read. May be it may be best activity to you.

Connie Medina:

As a scholar exactly feel bored to reading. If their teacher inquired them to go to the library in order to make summary for some book, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that studying is not important, boring along with can't see

colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Small Animal Surgical Nursing: Skills and Concepts, 1e can make you really feel more interested to read.
