The Astronaut Instruction Manual Mike Mongo

Endorsed by authors, teachers, scientists and Congressmen, Mike Mongo's *Astronaut Instruction Manual for Pre-Teens* excites a new generation of space explorers. The book, designed for children between the ages of 8 and 13, is a functioning, first-step instruction manual. With excitement and honesty, Mongo encourages his readers to articulate and personalize their own vision of next-generation space travel. Driven in part by new space celebrities (Commander Chris Hadfield, Elon Musk, Alyssa Carson), and in part by a shift in popular interest in space (SpaceX rockets, *Guardians of the Galaxy* movie, Kerbal Space Program videogaming), *The Astronaut Instruction Manual for Pre-Teens* captures a new era of enthusiasm for space exploration.
