## **Clarity in the Classroom: Using Formative Assessment for Building Learning-Focused Relationships**

Michael Absolum

The author, Michael Absolum, shows how building learning-focused relationships between teacher and student helps make “assessment for learning” principles work effectively. He does this by breaking down the bigger ideas of assessment into smaller parts that make it easy for educators to understand. Throughout the book, Absolum shares his ideas about the: • Nature of student learning; • Nature of the student/teacher relationship; • Skills that teachers need to support students; and • Skills that students need to learn. Originally written for a New Zealand readership, *Clarity in the Classroom* has been adapted for North American educators. This book is an essential resource for every teacher and administrator looking to support and enhance the learning opportunities for all students. The adaptations to the North American edition were done by James Gray, a vice-principal in Winnipeg, Manitoba, and Meagan Mutchmor, a K–8 mathematics consultant for the Winnipeg School Division.
