Critical Care Nursing: Learning from Practice

Critical Care Nursing: Learning from Practice

Critical Care Nursing: Learning from Practice takes a unique approach to critical care. Based around case scenarios that have the patient as the central focus, each chapter is constructed around an example of a critically ill patient with specific care needs. The chapters then go on to critically explore the knowledge and skills required to deliver expert care. This book looks at a range of critical care scenarios, including:

- The patient with acute lung injury
 - The patient with fever
 - The patient with an acute kidney injury
 - The patient with long term needs
 - The patient with increased intra-abdominal pressure
 - The Patient following cardiac surgery
- Each chapter develops knowledge of the related physiology/pathophysiology, appropriate nursing interventions that are research/evidence based, technical skills, data interpretation and critical appraisal skills, enabling the reader to apply fundamental knowledge to more complex patient problems. *Critical Care Nursing: Learning from Practice* is an essential resource for practitioners faced with complex and challenging patient cases.
