Much of what *we think* will improve our wellbeing is either misguided or just plain wrong. Contrary to what many people believe, wellbeing isn't just about being happy. Nor is it only about being wealthy or successful. And it's certainly not limited to physical health and wellness. In fact, focusing on any of these elements in isolation may drive us to frustration and even a sense of failure.

When striving to improve our lives, we are quick to buy into programs that promise to help us make money, lose weight, or strengthen our relationships. While it might be easier to treat these critical areas in our lives as if they operate independently, they don't. Gallup's comprehensive study of people in more than 150 countries revealed five universal, interconnected elements that shape our lives:

The Five Essential Elements

- Social Wellbeing
