## Globalization and the Politics of Resistance (International Political Economy Series)

Rejecting economic determinism, this book sets out to establish the centrality of "the political" globalization. In a wide-ranging set of essays, distinguished contributors explore the new "strategies of resistance" emerging on local, national, regional, and global scales. The authors engage in critical rethinking of what practices now constitute viable political strategies in the world economy, focusing on popular responses to neoliberal globalization and the rearticulation of society, politics, and the state.
