This book is designed to accompany "Biochemistry -- A Short Course" by John L. Tymoczko, Jeremy M. Berg, and Lubert Stryer. Authors Frank H. Deis and Nancy Counts Gerber have written a variety of exercises and study aids to match the content of Tymoczko's book. Each chapter has learning objectives, a self-test with short answer review questions, and longer and more thought provoking problems. Richard Gumport conceived of the Companion series and guided the earlier books, which were written to accompany the Biochemistry textbooks by Lubert Stryer and Jeremy M. Berg. Roger E. Koeppe II wrote answers to the homework problems in the Tymoczko text.
