**To Bed or Not To Bed: What Men Want, What Women Want, How Great Sex Happens** Vera Bodansky, Steve Bodansky

The differences between the sexes create both fun and tension. Most men want sex, either with a new or current partner. Women want sex too, but are trained to put up obstacles so as not to seem "easy." TO BED OR NOT TO BED presents specific information on how to use these differences to create more pleasure and intimacy in bed and elsewhere. The authors provide proven sexual and sensual methods used successfully with their clients, including exercises. The book takes readers on a journey that leads not just to the bedroom, but ultimately to a better relationship by showing how to take advantage of special techniques that bring a couple years of pleasure and happiness together.

The book includes a chapter written especially for women, another written especially for men.
