Quantitative Marxism

Quantitative Marxism

This book seeks to establish a constructive and useful interaction between empirical data and research methods, on the one hand, and Marxist theory and analysis, on the other. It shows that it is possible to operationalise Marxist concepts either by using orthodox data and reinterpreting it, or by constructing data which are more congruent with Marxist notions. The contributions deal with a wide range of theoretical, methodological and policy-related issues. Among the substantive issues discussed are unemployment and structural change, uneven development and industrial restructuring, and the financial sector.

Quantitative Marxism will be of interest to students and academics in economics and political economy, as well as to a broader audience interested in contemporary social and economic policy.

From reader reviews:

April Little:

Book is written, printed, or illustrated for everything. You can understand everything you want by a reserve. Book has a different type. To be sure that book is important factor to bring us around the world. Adjacent to that you can your reading proficiency was fluently. A book Quantitative Marxism will make you to end up being smarter. You can feel much more confidence if you can know about almost everything. But some of you think that open or reading some sort of book make you bored. It is not make you fun. Why they may be thought like that? Have you seeking best book or ideal book with you?

Dawn Williams:

What do you ponder on book? It is just for students because they're still students or the idea for all people in the world, what best subject for that? Only you can be answered for that concern above. Every person has different personality and hobby for every single other. Don't to be obligated someone or something that they don't want do that. You must know how great in addition to important the book Quantitative Marxism. All type of book can you see on many sources. You can look for the internet methods or other social media.

Angela Smith:

Reading can called head hangout, why? Because if you are reading a book particularly book entitled Quantitative Marxism your brain will drift away trough every dimension, wandering in every aspect that maybe unidentified for but surely might be your mind friends. Imaging each and every word written in a publication then become one type conclusion and explanation which maybe you never get just before. The Quantitative Marxism giving you another experience more than blown away the mind but also giving you useful information for your better life with this era. So now let us show you the relaxing pattern is your body and mind will probably be pleased when you are finished reading it, like winning a. Do you want to try this extraordinary investing spare time activity?

Betty Walsh:

What is your hobby? Have you heard that question when you got students? We believe that that question was given by teacher with their students. Many kinds of hobby, All people has different hobby. And you also know that little person including reading or as reading become their hobby. You must know that reading is very important and also book as to be the matter. Book is important thing to increase you knowledge, except your current teacher or lecturer. You find good news or update in relation to something by book. Many kinds of books that can you choose to use be your object. One of them is actually Quantitative Marxism.
