First FRCR Anatomy: Questions and Answers provides eight test papers modelled on the exam format of the Royal College of Radiologists' anatomy module. Written by a team of consultant and trainee radiologists, the practice questions and answers will give you the advantage you need to succeed and stand out from the average trainee. The questions include images from all modalities - CT, MRI, ultrasound, plain film, screening and angiography, closely correlating with the images you are likely to see both in the exam and in day-to-day practice. Expanded clinical answers also distil clinical radiological knowledge accrued over many years of clinical practice, making this much more than a revision aid. First FRCR Anatomy: Questions and Answers covers the full breadth of curriculum topics including MSK, cardiac, thoracic, genitourinary, gastrointestinal, vascular, neuro and pediatric imaging. An essential resource for all First FRCR candidates.
