Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture

Norbert M. Lechner

Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture Norbert M. Lechner
Discover sustainable methods for designing crucial building systems for architects.

This indispensable companion to Norbert Lechner's landmark volume *Heating, Cooling, Lighting: Sustainable Design Methods for Architects, Third Edition* completes the author's mission to cover all topics in the field of sustainable environmental control. It provides knowledge appropriate for the level of complexity needed at the schematic design stage and presents the most up-to-date information available in a concise, logical, accessible manner and arrangement. Although sustainability deals with many issues, those concerning energy and efficiency are the most critical, making an additional goal of this book one of providing architects with the skills and knowledge needed to create buildings that use electricity and water efficiently. Guidelines and rules-of-thumb are provided to help designers make their buildings use less energy, less water, and less of everything else to achieve their primary objectives.

In addition, this book:

- Addresses ways to reduce electricity usage through more efficient lighting systems and appliances and by incorporating automatic switches and control systems that turn off systems not in use.
- Covers the design of well-planned effluent treatment systems that protect against potential health hazards while also becoming a valuable source of reclaimed water and fertilizer.
- Provides coverage of fire protection and conveyance systems, including very efficient types of elevators and escalators and designs that encourage the use of stairs or ramps.

Complete with case studies that illustrate how these systems are incorporated into large-project plans, *Plumbing, Electricity, Acoustics* is an indispensable resource for any architect involved in a sustainable design project.

From reader reviews:

Mike Hendrix:

People live in this new morning of lifestyle always try to and must have the spare time or they will get great deal of stress from both day to day life and work. So , whenever we ask do people have time, we will say absolutely indeed. People is human not really a robot. Then we request again, what kind of activity do you have when the spare time coming to you of course your answer can unlimited right. Then do you ever try this one, reading ebooks. It can be your alternative throughout spending your spare time, the book you have read is usually Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture.

Gary Ackley:

As a pupil exactly feel bored to be able to reading. If their teacher requested them to go to the library or even make summary for some guide, they are complained. Just small students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture can make you experience more interested to read.

Melinda Anderson:

Guide is one of source of expertise. We can add our know-how from it. Not only for students but additionally native or citizen want book to know the change information of year for you to year. As we know those books have many advantages. Beside we add our knowledge, may also bring us to around the world. From the book Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture we can acquire more advantage. Don't one to be creative people? For being creative person must want to read a book. Merely choose the best book that suitable with your aim. Don't end up being doubt to change your life at this time book Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture. You can more attractive than now.

Belinda Bridges:

Reading a book make you to get more knowledge from it. You can take knowledge and information coming from a book. Book is created or printed or outlined from each source that filled update of news. In this modern era like now, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Ready to spend your spare time to open your book? Or just looking for the Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture when you necessary it?
