White Slave Crusades: Race, Gender, and Anti-vice Activism, 1887-1917 Brian Donovan

During the early twentieth century, individuals and organizations from across the political spectrum launched a sustained effort to eradicate forced prostitution, commonly known as "white slavery." "White Slave Crusades" is the first comparative study to focus on how these anti-vice campaigns also resulted in the creation of a racial hierarchy in the United States. Focusing on the intersection of race, gender, and sex in the anti-prostitution campaigns, Brian Donovan analyzes the reactions of native-born whites to new immigrant groups in Chicago, to African Americans in New York City, and to Chinese immigrants in San Francisco. Donovan shows how reformers employed white slavery narratives of sexual danger to clarify the boundaries of racial categories, allowing native-born whites to speak of a collective "us" as opposed to a "them." These stories about forced prostitution provided an emotionally powerful justification for segregation, as well as other forms of racial and sexual boundary maintenance in urban America.
